Product Information

Typical Use

Read the Health, Safety and Environmental Information opposite. Remove excessive dirt and soiling, large areas of algae, lichen, fungi or moss with a scraper or stiff brush, then sand and clean the surface. To prevent against rot and blue stain, treat with an appropriate wood preserver. Suitable for use on bare or previously stained garden furniture. Wipe bare oily timbers such as teak with white spirit and allow to dry fully before application of this product.

Composition

Water-based

Key Benefits

For any type of wood, Adds rich colour to softwood and a light tint to hardwood, Long lasting water repellent barrier, Water based

Pack size

750ML

Application Method

Stir thoroughly before use. Apply 2-3 coats. Brush on evenly along the grain avoiding overlaps. Allow 2-6 hours between coats under normal weather conditions. Allow a few days before heavy use or contact with soft furnishings. Final colour will depend on wood type, previous treatment and the number of coats applied. Do not apply in temperatures below 5 degrees C, in damp conditions or if rain is likely before the product has dried.
